Lake Region Medical to Showcase Contract Manufacturing Services at MD&M West 2013

Company to Heighten Focus on New Materials, Coatings, and Processes for the Development and Manufacture of Complex Components, Sub-Assemblies, and Finished Devices

Minneapolis, Minnesota January 28, 2013 - Lake Region Medical, an original development and manufacturing partner (ODM) to leading medical device companies, announced that it will have representatives available at booth # 1975 to discuss the company's capabilities, services, and technologies at the Medical Design and Manufacturing conference (MD&M West) in Anaheim, California.

"Medical device technology continues to progress rapidly, Lake Region's continued investment in new materials, coatings, and processes places us at the forefront of those technology changes," said Mark Fleischhacker, President and COO of Lake Region. "We look forward to returning to MD&M and the opportunity to discuss new advances being made in the development of complex devices and assemblies for minimally-invasive therapies, sharing how our highly-specialized expertise can benefit our partners."

Lake Region Medical will be exhibiting at MD&M West February 11 – 14 at booth # 1975.

About Lake Region Medical

Lake Region Medical is a global leader in the development and manufacture of OEM devices, supplying the world's largest medical device companies with minimally invasive delivery solutions. It is an industry expert in developing and marketing medical devices to meet unique clinical challenges for cardiovascular, stimulation therapy, neurovascular, and peripheral vascular applications, and serves all major markets worldwide. Lake Region collaborates with top physicians and leading university research facilities on new product developments and has established development and distribution partnerships with industry leading medical device companies throughout the world.

Based on the changing dynamics of the U.S. healthcare industry, LRM remains well positioned to provide strategic R&D partnership opportunities with major medical device companies, including:

- Increased investment in R&D to support customers in development of non-core devices. Preferred vendor for leading OEMs
- Innovation unique to the market
- Product and technology platforms with competitive advantages
- Proven, reliable quality and service
- High-volume manufacturing and supply chain management

The privately held company, based in suburban Minneapolis MN, was founded in 1947.
